When I discovered craft blogs 4 years ago, Hillary Lang's [...] was my first blog crush. I've purchased and sewn several of her patterns, was pleased as punch to see the pending book announcement, and so excited to get the e-mail this week that her books were shipping a bit earlier than expected. I'm a big fan of Hillary's, appreciating her writing and aesthetic, so I was expecting to love this book (bought one for me and one for my mum). I can be quite critical of craft books, however: many seem to just be riding on an artist or blogger's niche fame and don't really offer anything new. But this book does not disappoint.
24 Dolls just came today, so I haven't actually sewn any of the projects, but I have sewn her patterns before and they're usually well tested. I particularly appreciate this book because:(1) The photography is excellent. Not only is it design-gorgeous, but each view of a project shows useful aspects that help the reader in recreating

or appreciating the toy's details.(2) The illustrated instructions are very clear. Extras like color-contrasted stitch lines and measurements will keep me from making first-timer mistakes.(3) There is an excellent mix of projects. Gender, detail, fabric type, size, and play use are varied. I could recognize each as uniquely Hillary's, but they are different from each other and from her previously shared or published patterns.(4) The extensive "Wee Wonderfals Basics" section at the end covering materials, methods, and expert hints is worth the price of purchase itself. It's clear enough for beginners and thorough enough for toy-maker-aholics such as myself.(5) Although the instructions themselves are direct, each is headed with Hillary's own trademark best-friend commentary.
