Customer Reviews

A great, quick, and easy read! I really enjoyed the piece about learning to grieve. I feel learning to grieve is often a piece growing up that a lot of people don't get to do and experience properly. Also, I appreciate that the author acknowledges the fact that there is no one specific way to get over a pet loss. People experience and feel differently, some take longer than others, and I like that this book

covers that. I would recommend this book for everyone.

Nothing earth shatteringly new for a former psych grad student, but it was very comforting nonetheless. Very good thoughts on how to remember your pet. I made a small wreath with my cat's photo and hung it on the front door. I lost my cat, Delenn, who would have been 20 in January, on Dec. 2. We have 2 other cats and a dog, but Delenn was all mine and very special. She met me every morning at the foot of the stairs, and it still surprises me not to see her there.

This is a must-read for anyone with pets or anyone who has recently had a pet pass away. People often struggle to make sense of loss, searching for answers and ways to live on after such a traumatic episode. This book acknowledges the challenges, and provides strategies for thinking and acting in order to overcome them. Avery does a great job emphasizing and affirming positive steps toward healing, which I appreciated. Read this book. You won't regret it!
