### Synopsis

Who Else Wants Knockout Roses: Be The Envy Of Your Neighbor!Today only, get this bestseller for just \$2.99. Regularly priced at \$4.99. Read on your PC, Mac, smart phone, tablet or Kindle device.Youâ <sup>™</sup>re about to discover how to...The things you both need and want to know about rose gardening are included herein. This will serve as your guide in shopping for a rose breed that is appropriate for your area. Aside from that, you will learn about planting considerations as well as the maintenance needs afterwards. The skills you need to acquire to be an exceptional rose gardener are also presented in this book. You will also enjoy fun trivia about roses and ways on how the roses will make your day. Here Is A Preview Of What You'll Learn...- All About Roses- Knockout Rose Gardening Basics- Setting up a rose gardenAnd Much Much More!What Others are saying about this bookRoses are my favorite flowers of all time. I think they are beautiful and smell divine, so I decided to pick up this book in order to grow my own, so I can have fresh roses in the house all the time! I found this book to be really informative and to the point, which is great to me. It told me exactly what I need and how to get started, including what tools to use, how to irrigate, fertilize, plant, prune, and much more. This book is great for newbies or even for seasoned gardeners. My knockout garden is on its way and yours can be too! I can't

wait.-----I recently moved into a new place out from an apartment and my wife was really excited to get started on actually having a garden, and a lawn, and a driveway...so I got this to help my wife with the garden as she is by no means a green thumb but from what I have seen the book seems to be helping! Not only is she actively building a rose garden shes learnt how to keep out pests and weeds and such from ruining our garden. Highly recommend!------Having a beautiful home garden is one of the top home enhancing investment you can do and this book provides great information on how to grow lovely, colourful roses in your home garden. The book goes into detail on the different types of roses and which ones are best to use, choosing the right area to plant and the soil PH to use and then how to maintain the rose garden at tip top condition, among a whole bunch of advice!I chose to give this book a 5 star rating because the author did a great job of giving the reader a lot of valuable information and it is organised in such a way that makes it easy for the reader to read!------Download your copy today!Take action today and download this book for a limited time discount of only \$2.99! #### **Customer Reviews**

I've always LOVED roses and always bought them, planted them and been disappointed when they failed to grow. I had given up till I was recommended to read this book, and I'm glad I did. I feel confident I can give it another go and finally have a positive result! Being a very casual gardener, I can see now where I went wrong and what I need to do to finally have a stunning garden of roses.

I picked this book up because me and the wife are planning a rose garden this year..something she has been talking about for the past few years. So in order to get a jump on things I went through the book and learned a lot about roses, the different options. I hate gardens with little ground cover and found excellent rose options just for that. I also enjoyed the discussion on style, shape and dimensions. A lot of great options to think about. I'm convinced you cannot go wrong with any one of them.

Wow, knockout roses lasts during the winter too! And if you are into roses or gardening, you would

love these. Also, this book provides ways to keep yourself protected, what tools you should use and how to keep up with the roses.

There's some helpful information here. But it wasn't what I was expecting from a Kindle book in terms of amount of information, length, and so on. And that's my fault for not reading the note about how these books arose because the content was too long for blog entries! :)
