Customer Reviews

An excellent source of knowledge for all types of plants, annuals and perennials, listed separately for sun, shade, partial shade, etc. and giving zones for each. This book is all you need.

The book is laid out very well, the descriptions of the plants are clear, and there is an excellent picture for each. The book is no longer in print, so get it while you can!

A friend of mine checked this book out from a local library almost year-round, so I told her I could buy it for her from . She loves it!

Awesome and a very helpful book, would recommend it to anyone who enjoys gardening.
