# Pruning Trees, Shrubs & Vines: Storey's Country Wisdom Bulletin A-54 (Storey Country Wisdom Bulletin)

## Synopsis

Do you have an old grapevine that needs training? A forsythia that has become too leggy? Evergreen shrubs that threaten to push through your first-floor windows? Have you just purchased a new home and feel mystified by the pruning chores ahead? If so, help is here in *Pruning Trees, Shrubs & Vines*. Pruning is one of the best things you can do for your plants and trees, if it's done the right way. When pruned regularly and properly, your plants stay vibrantly healthy. Flowering shrubs and vines produce more blossoms, fruit trees and berry patches yield more fruit, and hedges and evergreens remain full and well-shaped. *Pruning Trees, Shrubs & Vines* offers all the advice you need to start pruning fruit and shade trees, evergreens, grape vines, berry bushes, ornamental shrubs and vines, hedges, and roses like a professional. You'll learn how, where, and when to prune as well as what tools to use. For quick reference you'll find a pruning timetable, a condensed plant-by-plant pruning guide, and an A-to-Z glossary of pruning terms.

## Book Information

Series: Storey Country Wisdom Bulletin (Book 54)

Paperback: 32 pages

Publisher: Storey Publishing, LLC (January 8, 1983)

Language: English

ISBN-10: 0882662295

ISBN-13: 978-0882662299

Product Dimensions: 5.5 x 0.1 x 8.5 inches

Shipping Weight: 0.3 ounces (View shipping rates and policies)

Average Customer Review: 4.3 out of 5 stars [See all reviews](#) (17 customer reviews)

Best Sellers Rank: #103,492 in Books (See Top 100 in Books) #8 in [Books > Crafts, Hobbies & Home > Gardening & Landscape Design > Shrubs](#) #22 in [Books > Crafts, Hobbies & Home > Gardening & Landscape Design > Trees](#) #219 in [Books > Crafts, Hobbies & Home > Gardening & Landscape Design > By Technique](#)

## Customer Reviews

This is a nice short concise reference guide which is exactly what I wanted. For those who want more detail/more fluff then maybe an actual book would be better for you. It's basically a pamphlet which is why some others are giving lower star reviews. Pamphlets come packed full of good information sometimes, especially when they are Storey's.

Bought this book in anticipation of the upcoming season this next year. Have about 6 acres of fruit trees in orchard, and they haven't been properly pruned in God only knows how long. Looking for info to prune so the trees will produce bigger and better fruit. Haven't gotten the opportunity to put read words into live physical action, but from what I've read, it looks like it all makes sense.

Useful to explain proper timing and techniques for a diverse set of plants. Comes in a handy small size and at a reasonable price.

Did quick read and find the series I bought along with "Pruning Trees,...." to be helpful. It wasn't like: it's too overwhelming". It's a handy size I can carry and review anytime, so I rate it a 5 (I love it).

The booklet is very interesting and informative. I believe it will help me in the future. I was particularly interested in pruning fruit trees and it has good information.

Great advice for the novice plant lover.

You can't go wrong with any Storey's booklets! This one really helps with my over zealous pruning habit, LOL, keeps me out of trouble with the wife!

This is a pamphlet not really a book-book. It gives good easy to understand directions that are very easy to follow.
