New Backyard Idea Book (Taunton Home Idea Books)

Synopsis

The backyard is no longer simply the place where you set up the grill and swing set. We all want more from our homes and that means expanding our livable space to the outdoors. In fact, homeowners are spending more time and money than ever on their yards. This book is a completely revised and updated version of Taunton's™ best-selling Backyard Idea Book that brings together hundreds of fresh ideas and unique solutions for making the most of one's outdoor space. The inspiration is limitless for small to extensive projects. With spectacular new 4-color photography, the New Backyard Idea Book is brimming with ideas for porches and patios, outdoor rooms for dining and entertaining, garden rooms, all types of sheds and outdoor buildings, and more. Add natural pool settings and picturesque outbuildings to the mix, and readers will delight in this outdoor design guide. A new sidebar features a DIY project for more hands-on homeowners.

Customer Reviews

We were looking for ideas for our backyard. We won't be doing the work ourselves, but we need to come up with what we want. So I wasn't looking for a do-it-yourself with step by step instructions. As the title states, we were looking for an idea book, and this one fit the bill. Two thumbs up.

The New Backyard Idea Book is a great book to add to your permanent library. Whether you need a small container garden for apartment living, a modest plan for a city lot or a coordinated design for

several garden "rooms," this book will lovingly illustrate a host of different design options. Well written with magnificent photographs showcasing the flavor of each garden element. Inspired by some of the water features, pergola ideas and seating options, I think a visit to my local greenhouse and garden store is definitely in the offing this weekend! Excellent for coffee table and schools, too.

I was looking for basic design options for a family just starting out in their first home. The ideas presented are good, but not what I needed.

just like buying new , but better price. Great for ideas in the front and back yard to choose from and very clear

Gave me some ideas, but this book could only be fully utilized by people with big fancy houses and lots of money.

Excellent condition, very useful garden tool. Easy to follow tips and step by step instructions. Yes, I do recommend this book.
