## Customer Reviews

I saw this book advertised online and I bought it at our local book store when I became engaged. If you are a bride to be or in love or just love romance? This is the book for you the stories will tug at your heart strings, make you laugh, cry and even think about your new love. I am getting married this Nov 04 and the stories are AWESOME! When you get busy with life's details reach for this book and find a comfortable chair and get cozy. You will not be sorry that you bought this book. I'm glad I bought this book it's fantastic.

This book is great for Bride's to be and Veteran Bride's alike. I bought this book prior to my March 2004 wedding. It offered me insight and motivation to keep planning my wedding. It is hysterical and touching. The cartoons are amusing and they can almost guarantee you will find at least one you can relate to. Highly recommended for anyone who has or is about to embark on the path of marriage.

I love this book! I read it a few months before my wedding (I found it at Goodwill) and one of my friends wanted to read it (she's getting married next year). I knew I wanted to re-read it in the future as time goes on, so I found an inexpensive, good quality, used book on Amazon and sent that one to her as a surprise. She loves it so far too. It's a great book for a bride-to-be, or any person in a relationship as a reminder of what's important in life and relationships.

Upon reading this book, I am immediately reminded of how strong the bond between couples in love must be, and how they can be. The stories in "Bride's Soul" consistently serve to regenerate and reinforce the fact that a lifelong love becomes a relationship in which the importance of the individual's existence gladly takes a back seat to the value of the couple's happiness together. Love is a matter of respect, understanding, admiration, loyalty, strength, honor and commitment; and this book exemplifies all of these grand qualities in a language anyone could understand. I recommend this heartwarming book to any person who wonders about love, and all the power that it holds. Thank You

Bought this for my Goddaughter as she was getting married. The stories of hope and love are wonderful and reassuring in a day when relationships are a dime a dozen. It's also filled with wonderful tears and laughs. I highly recommend!

I'm a sucker for the mushy, tear-jerking stories in this series of books. This edition is no exception. Short and sweet stories, some a little sad (usually in a good way), and some inspirational. I'd recommend it if you're into the series.

This great book had me laughing and crying with touching stories on every page. It is not only a great gift for any new bride, but for anyone who has ever been a bride. An excellent anniversary gift idea. This book puts the important things in life into crystal clear perspective. If you like a good love story you will LOVE 101 of them in one book!

If I would have quit reading this book because of my disappointment at the first section, I would have never realized that this is a great book. The further I read, the better the stories got. This book is not only for new brides, it's just as equally for brides who have been married for years. I bought my copy when I was planning my own wedding more than two years ago now, but didn't get around to reading it until recently. It was worth whatever I paid for it and it's staying on my bookshelf. I highly

recommend this book to any who are getting married, any who are already married, and any who dream about having a marriage that literally lasts a lifetime. This is the best Chicken Soup book I have read to date.
