Customer Reviews

We purchased this book to learn how to eat better, it has description what diabetic is and explained type 1 and 2. Hopefully this book will guide us what's good and what's bad. Has quite few recipe in it to try out. I would recommend this book for those are new to diabetic.

I did like this cook book but the print was a little small for my eyes so I passed it along to one of my younger friends who's young daughter was just recently diagnosed. All in all it has awesome recipes and she loves it.

Very good cookbook, like all taste of home cookbooks it has beautiful appetizing pictures and great recipes! Especially enjoyed the simple meylime pie!

Looks very easy to use with eye appealing recipes. Has much needed information to help plan good meals. Arrived on time, packaged well, brand new condition and I'm very pleased.

Very yummy looking recipes. Taste of Home makes everything taste great, and I'm counting on them to do the same with this new way of eating.

Taste of Home recipes are always good, recipes are tried and true from home cooks, however. My favorite diabetic recipe book is Eat What You Love.

Love anything Taste of Home. Am incorporating many of the recipes in my meal planning.

Recipes are good. My husband even complimented me on a few I have made.
