# Pesticides Residues In Food 2013: Joint FAO/WHO Meeting On Pesticides Residues - Report 2013 (FAO Plant Production And Protection Papers)

## Synopsis

The annual Joint Meeting of the FAO Panel of Experts on Pesticide Residues in Food and the Environment and the WHO Core Assessment Group on Pesticide Residues was held in Geneva, Switzerland, from 17 to 26 September 2013. The FAO Panel of Experts had met in preparatory sessions from 6 to 10 September. The Meeting was held in pursuance of recommendations made by previous Meetings and accepted by the governing bodies of FAO and WHO that studies should be undertaken jointly by experts to evaluate possible hazards to humans arising from the occurrence of pesticide residues in foods. During the meeting the FAO Panel of Experts was responsible for reviewing pesticide use patterns (use of good agricultural practices), data on the chemistry and composition of the pesticides and methods of analysis for pesticide residues and for estimating the maximum residue levels that might occur as a result of the use of the pesticides according to good agricultural use practices. The WHO Core Assessment Group was responsible for reviewing toxicological and related data and for estimating, where possible and appropriate, acceptable daily intakes (ADIs) and acute reference doses (ARfDs) of the pesticides for humans. This report contains information on ADIs, ARfDs, maximum residue levels, and general principles for the evaluation of pesticides. The recommendations of the Joint Meeting, including further research and information, are proposed for use by Member governments of the respective agencies and other interested parties.

## Book Information

Series: FAO Plant Production and Protection Papers

Paperback: 624 pages

Publisher: FAO (July 1, 2014)

Language: English

ISBN-10: 9251080437

ISBN-13: 978-9251080436

Product Dimensions: 1.5 x 8.5 x 12 inches

Shipping Weight: 3.6 pounds (View shipping rates and policies)
