Customer Reviews

Great item ! It looks like the picture. It came on time. This item was a gift for a friend. This item come with so much it has pockets inside with stickers ect.. I love it so much im going to buy myself one !

I bought this as a gift for a friend who was getting married. I hand wrote several of my recipes and organized them in the book. There is a good selection of scrapbook type pages and stickers. I only wish that there was a way to order just the recipe cards that came with it. I ran out of cards before I ran out of recipes to put in the book. The full size scrapbook recipe pages are nice because they have a space to put a photo of the completed dish. Plus, there is a lot of space for writing out instructions or hints and tips for preparing the dish.

I love the multiple functions of this book. It is a scrapbook with pages you can customize and add photos of either the food, or the loved one that made the dish along with the recipe. It also has recipe cards and extra sheets of paper that can be used to make your own pages and clear inserts to put them in. It has these handy folders in the back for those recipes you might find in a magazine and cut out and need to store somewhere. You can order extra pages of everything which is great.

This binder is cheap looking and fragile. In an undamaged shipping box, the corner of the binder had a 1" rip. It was not wrapped in bubble wrap and the box was way too big for it.and not taped well. I had wanted a nice looking binder for my new kitchen. The contents appear okay but an attractive binder was my main interest.

Got this for my daughter. Put together a bunch of our family recipes, with pictures etc....she absolutely LOVES it! Makes me feel great knowing she will have this with her all of her life. Very special gift.

The cover and back are much more than cardboard. The material can be wiped off-a real plus for a cookbook. There are several themed cardstock sheets, as well as patterned papers. Lots of very nice stickers. I liked it somuch I sent one as a gift. Great price for all that's included.

My sister bought me one of these for Christmas last year and put a bunch of my mom and grandmas recipes on it. Great gift idea for anyone who loves to cook or if you just want to keep all your families treasured recipes in. So I had to buy more and put them away to maybe add some of my own recipes some day. Came super quick too.

Great if you are a scrapbooker. Filled my needs. Some of the rings did not close securely so a little adjustment with pliers was necessary. Overall a good way to get those family recipes passed on to the kids with plenty of room left for additions.
