Border Collie Dog Training: The Katz Way

Synopsis

Border Collie Dog Training: The Katz Way shows you the same techniques, strategies and training tools used by Master Dog Trainer Adam G. Katz, the man who has taught thousands of Border Collie owners how to get their dogs to listen to them, anywhere they go. As the publisher of a dog training newsletter read by over 65,000 dog owners and having owned three dog training companies (South Bay K-9 Academy, Adam's Las Vegas Dog Training Company and Katz Trains Dogs) the Katz Way is the method for getting maximum results with your Border Collie in minimal time... using the same methods that Katz uses with his own dogs. The Border Collie is one of the most versatile and trainable of breeds. But it can also be one of the most difficult, depending on your individual dog's temperament, bloodlines and nerves. Border Collie Dog Training: The Katz Way details a balanced approach to training your dog. Katz has traveled the world and worked with some of the best trainers he could find. Techniques and approaches are borrowed from those who train police dogs, search and rescue dogs, guide dogs for the blind, therapy and service dogs-- and anyone else who must have 100% reliability from their dog. The Katz Way is not a purely positive or cookie bribery approach to training. Katz believes that dogs are intelligent, thinking animals. The Katz Way seeks to let your Border Collie make the decision (instead of trying to restrain or bribe!) If your dog makes the right decision, he receives praise. If he makes the wrong decision, he receives a correction and then the opportunity to make the right decision. The information in Border Collie Dog Training: The Katz Way will transform your dog into a happy, reliable and confident companion you can take anywhere and know that he will respond eagerly and joyfully. Behaviors taught include: - How to walk on a loose leash without pulling - Stop annoying behaviors such as barking, biting, jumping up or nipping - Sit on command - Stay - Go to your place - Lie down - Come when called, every time - Heel - And much, much more! Highly recommended by top dog trainers from around the world.

Balanced training is by far the best way to go for every dog. Anyone who thinks balanced training is abusive, aversive or otherwise filled with nothing but punishment and dominance techniques has no clue what they are talking about.

So excited to read this book by a well-known trainer that is educated, respected and professional! When one trains with honesty and integrity, it shows, and the dogs reflect that.

As a professional dog trainer, I found that this material has some of the best description of methods and techniques when using the training equipment properly. Most people, especially trainers, that down grade or down play training equipment really 1) don't know how to use them 2) are too afraid to use them 3) or heard bad things so didn't explore on their own. When training some of the smartest breeds out there, you really need to know what you are doing and Adam Katz does!

As a gun dog trainer who has worked with many breeds, ranging from soft to hard, I can say that when used properly all the tools described in the text are effective. Anyone who believes that these methods are abusive have not the experience to comment.

Looking forward to downloading the whole book and reading more than just the sample! Adam knows his stuff, having trained hundreds of dogs. I have had the pleasure of watching he and his wife, Carla, train Banjo (his own BC) along with his training many other dogs via his training videos

and I have read most of his books. I can tell the readers they will not be disappointed with what he has to say. The readability and the results they will get if they choose to put his methods into their own dog's training will be proof enough. I have read many books that bog you down with technical, boring blah-blah. or that don't take you past the cookie/treat reward stage. Adam's book will not. (you can't carry treats around in your pocket forever!) This book will take you step by step through the process of training and makes things easy to understand while you learn. If you haven't decided which book to get, don't leave this one out. You'll be glad you did!

Balanced training is the best method for both animals AND humans. I train with positive methods all the way I can, BUT what happens IF the dog acts out anyways? Well, I'm sure I won't be tossing treats to make the dog stop, no I will use an aversive to end the behaviour and then encourage the right behaviour! It's the same with children. Great book with great content!
