Customer Reviews

The New Honeymoon Planner by Sharon Naylor is perhaps the most thorough and helpful general travel guidebooks I have ever discovered. It is perfect for the groom or couple planning a honeymoon, whether a luxury trip or on a tight budget. However, it is NOT just for honeymooners! It has excellent trip planning tips for EVERY kind of trip, and you will save many, many times over the

price of the book (\$16.95 US) in the first trip Sharon's tips help you plan. She has covered every kind of travel, both domestic and foreign and every kind of trip from luxury cruises to back-packing in the jungles. And she directs you to a wealth of internet sites that will answer any problem you could ever encounter on a trip or supply any need for the travels. THIS BOOK SHOULD BELONG TO EVERYONE WHO PLANS ANY KIND OF TRIP TO ANYWHERE!

We got this book as an engagement gift, and we love it. It's PACKED with ideas and resources on so many honeymoon spots that we're now considering something more adventurous than we wanted before. Plus, we read about some islands we've never even heard of...they'll be great for our future vacations! That's the thing about this book. It's just filled with great vacation ideas and Web sites, plus insider tips on how to make travel easier and safer...so we're hanging on to this one for all our future trips. And it was so much fun to read about the private islands and special packages you can get, the food and wine tours you can go on, how to get extra perks at your hotel for being honeymooners. This is our Honeymoon Bible.

My fiance and I aren't really into the island honeymoon scene, and we heard that this book has a ton of suggestions about cruises, spas, travel abroad, adventure trips. And this book is great!...especially the big cities section that talks about great places in the United States to visit. The list of Websites to check out is enormous, and we loved the packing section. This is a great handbook -- very useful, filled with ideas and a big time-saver. Get this one and use it again for your 1st anniversary vacation.

We couldn't find anything really adventurous that we wanted to do on our honeymoon -- we'd read about scuba diving, snorkeling, paradsailing in travel articles, but we didn't find THE destination for us until we read through this book and found four or five great islands that were perfect. Even better, this book has a giant contact sheet, so it took us no time at all to get to the islands' Web sites and request info. So we're off to the Seychelles next summer for our honeymoon! We can always go to Belize or to Thailand on another vacation. This is a great book for anyone who wants to do something really original on their honeymoon...and then keep these suggestions around for future travel plans. This is one wedding book I'm not handing off to my other engaged friends! I'm keeping this one!

If you only want a book to plan this one is good. Think more research can be done online for the

price of this book.
