# Scroll Saw Country Patterns

## Synopsis

The authors describe and demonstrate the variety of projects that can be created from these patterns—wall hangings, holiday decorations, door stops, key rings, candle holders, switch plates, and decorative shelves. In addition, the standard patterns for animal figures, vehicles, nature scenes, and common folk-art images can be used by innovative craftspersons who work in media such as quilts, appliqué, stained glass, stencils, and jewelry. • Booklist.

## Customer Reviews

This book doesn't bother wasting pages on all that seemingly mandatory safety and parts of the saw nonsense that you don't really need to read again. It jumps right in with page after page after page of patterns. They are bold lined and xerox really well for adhering to your wood. The book even seems to bend open on the scanner better than the rest of my scrolling books. Many of the patterns repeat themselves in a sense throughout the book leading to a cohesiveness in the items. For example, the miniature sized patterns at the beginning contain a duck whose general shape is then used blown up as a larger duck cut out in the later duck section of the book. The majority of the patterns are simple cut out shapes and the book does include tips on how to paint or otherwise finish your cut outs to match a traditional country decor. There are a few patterns for more complicated items like a candle holder, a cow paper towel rack, a set of mini shelves, coasters and a match box for the wall. The simplicity inherent to the country decorating style makes these

patterns great for a beginner, but you'll want another book to cover the real beginner stuff, like how to choose wood and blades since as I stated earlier, this book is all patterns!

they should learn what free means. you as for free wood working plans and all you get is plans that have a price.

Gift for my husband. He found it very useful and helpful. Found a lot of fun projects in it to keep him busy.

I am just starting out on my scroll saw and my wife loves these patterns the seller did a great job
