Pokemon Go The Ultimate Full Guide (Pokemon Go Game + Extra Bonus Cheat Sheet, Tricks, Hints, Tactics, Tips, Hacks, For IOS, Android)

Synopsis

This is an updated Ultimate Guide to Pokemon Go with new and real hints, tips and secrets. Almost each chapter has extra ProTips that help you to make most out of your time playing the game. This guide isn't based on "theories", it's rather based on real Facts and Experience. Each chapter runs through a play mechanic in Pokemon Go. The chapter starts by explaining how to quickly jump into every aspect of the game and elaborates by showing how to master the technique. Get the best Pokemon, train them efficiently and win local gyms around your neighbourhood. FREE BONUS! Customer Reviews

This is an amazing guidebook and fully loaded with tons of helpful guidance about Pokemon Go game. Inside of this book I have found plenty of cheat, tricks, hints and much more. Thought I had various Pokemon Go guidebooks before, but this book is one of my best reads. By reading this

book I have learned some tactics and hacks too. I will highly recommend these tips that I got from this *Pokemon Go The Ultimate Full Guide (Pokemon Go Game + Extra Bonus Cheat Sheet, Tricks, Hints, Tactics, Tips, Hacks, for iOS, Android)* book, they were really very helpful. In each chapter I have found pro tips and the author has described every very clearly. I purchased this book a few weeks ago and by reading this book I am super impressed. I would like to recommend this book all Pokemon Go game lovers.

This is the best guide ever. I'm currently on level 19 and their ProTips are amazing. Although there aren't many, but believe it they are very helpful. Advanced players will definitely find it useful. Very Recommended!!!

Not a good book at all for players like me. This book suits for only beginners who just came to the game. It would be useful if I read it earlier when I started. If you are two weeks into the game, this isn't the type of book for you

A great book! Well-structured, easy-to-understand and with some good tips. The professional trainers probably won't find much new things here, but the beginners will get more than they need. It's a good guide to jump quickly into the game. I liked how the author highlights the important ideas of the book.

I literally just booted up the game. Prior to reading a book, I downloaded it. It hinted about a Pikachu for starter Pokemon so I got all excited. I didn't know what to do and (how in the heck do you walk away?!) I got frustrated and downloaded this book. Next thing I know, I got the Pika! Best beginner read (I was a noob and probably would still be without the help of this handy guide) and I love it! Sorry for typos

This is a great book. All my friends are playing this game, except me. And I felt like I left behind, so I bought this book. It is well packed guide for not only beginners, but also advanced players should find it helpful as well. There were ProTips that are amazing. The further you read, the more information you get regarding how to catch the best Pokemon, or how to raise the strongest fighter. I'm not sure if all these tips are correct, as I can't check them cuz I'm only level 4, but so far I really found those Tips unique. It's the unique guide indeed. I'm not telling my friends about this guide as I want to catch up with them quickly and then battle with them. Anyway thank you so much

for such a detailed guide!

This book is a brilliant Pokemon guide! If you really want to perform to your full potential and Play like a Pro, look no further! Instead of spending hours searching the Internet to find tips, cheats, and information, just get this book! It's really easy to read and has all the must-know information about the game. It covers all the basics and advanced tips. I recommend it for anyone starting or been playing for awhile. I have already knowledge on how to play this Pokemon Go. It has tricks here and tips on how to catch the Pokemon successfully.

Pokemon Go... This is like the biggest game ever. Overall, great book, I got some tips and tactics I haven't seen in other books. I usually find something different in each book but one thing in here helped me level up. WOOP! Hey, if you want to win you got to be learning constantly. The author does a great job explaining the tactics and strategies in a very simple manner. I like that. good read.
