## Customer Reviews

I started reading this book because I am a diabetic and I wanted to know more about this disease and it's toll that it takes on our body. The adverse effects that this disease has with this human system. I am happy to state that all my queries have been satisfactorily fulfilled. In addition to that I now know that this disease not only needs proper attention but strict diet and meal planning. This book has given me useful information on the number of calories the daily meal intake gives us. Am quite sure that with proper supervision and strictness and this much needed knowledge about this disease am now much more aware of my body and this disease and we'll equipped to cope with it.
