Customer Reviews

I'm impressed by this book, the stages are easy to follow and the recipes are delicious! Perfect for

new parents who are interested in preparing wholesome meals for their little one. Besides having lots of tasty recipes for each stage of your baby's development it provides valuable nutritional information. Very helpful, I highly recommend.

This is my go-to book when it comes to making my baby's food, especially when I'm looking for wholesome recipes that would add variety to my daughter's diet plus I find the recipes delicious! In it there's a great blend of information about preparing, storing, and serving baby food. A wonderful cookbook with step-by-step preparation guide, very helpful when you want to make creative foods with textures and good tastes instead of limiting your child to mass produced baby food. Highly recommended for parents who need direction or ideas when choosing age-appropriate recipes for their little one.

Packed with over 100 recipes and loads of nutritional information, this guide makes cooking healthy meals easy, even for busy parents. I found unique and easy to make recipes that my daughter loves, it is also well organized with recipe ideas for different ages/stages of growth, this is a must have!!
